# A MINISTRY OF THE WHOLE

**EXPLORING SPIRITUAL ACCOUNTABILITY**  
**NOAH BAKER MERRILL AND MARGE ABBOTT**  
**JANUARY 21-23, 2011**

In this weekend workshop, we will introduce and explore basic concepts of "spiritual accountability", including how one person's gifts in ministry or service can be held and nurtured by the faith community, the practice and process of anchoring and oversight committees, and meeting encouragement of an individual's deeper growth into faithfulness. We will share experiences, provide resources, and support one another as we build up our capacity to be faithful together.

**PRACTICING SPIRITUAL ACCOUNTABILITY**  
**VIV HAWKINS AND JIM LYONS**  
**JANUARY 21-23, 2011 OPENING RETREAT, WITH  
GROUP WORK AND ON-LINE STUDY TO FOLLOW**

The vitality of our meetings and of Quaker practice depends on helping one another to be faithful as we support each other and the ministries in our midst. We will learn and practice a corporate process to ground a leading or ministry, enliven the meeting community, and help all involved be accountable. This course, for people committed to the ongoing practice of corporate spiritual accountability, combines a weekend residency, group work, and on-line study and reflection.
